

Transfers to your account at Swedbank Sweden

As a Swedbank customer, you have the advantage of being able to carry out a same-day transfer, free of charge, to transfer your salary from your Danish account to your Swedish account. When you do this via the Internet Bank there are a few things to bear in mind, so read through the following information to ensure that you register your transfer correctly.

- Foreign transfers can be registered on working days between 05:00 and 21:00.
- In order for the money to be available in your Swedish account on the same day, you need to register the transfer before 15:00. Transfers registered after 15:00 will be available on the following working day.
- You should select the currency SEK (Swedish kronor) or DKK (Danske kroner) when sending the money.
- The amount you send must be available in your account. Remember to include the payment date if you are registering the transfer in advance.
- The transfer should include **IBAN and SWIFT/BIC** details. You can get information about IBAN-number from swedbank.se. If IBAN and/or SWIFT/BIC is missing or incorrect, 50 kronor will automatically be withdrawn from your account.
- The image below shows the Internet Bank transfer form and explains which fields you should fill in. Fields which are not described should be left blank.
